

nice to meet me 

WAVE EDITION 2025

OUR BRAND

nice to meet me is the creation of Maicol, a Colombian fashion designer based in his Vienna studio, and Denise, a yoga teacher who splits her time between her van and Linz. We collaborate with small workshops in Czechia and Portugal to produce our eco-friendly activewear, focusing on sustainability every step of the way. Our mission is to create clothing that promotes freedom of movement and the best wearing experience, while being fair, thoughtful, and chic. Our apparel is designed to inspire you to stay active and feel at one with both nature and yourself.

WHY WE MADE THE WAVE EDITION

Our idea to create a surf and swimwear edition began with a simple question: "How can we design swimwear that remains in place during the wildest adventures while reflecting our deep respect for the environment?" The result is versatile, reversible pieces made from recycled materials, offering excellent support and a sustainable choice for all your water adventures and beyond.

THE MATERIAL

Regenerated nylon (ECONYL®) is a sustainable material made from recycled nylon waste. The process of producing ECONYL® involves using nylon waste such as fishing nets, carpets, and fabric scraps that would typically end up in landfills. These materials are collected, cleaned, shredded and then processed into a new yarn that can be used for manufacturing textiles and other products.

ECONYL® stands out for its exceptional softness and flexibility, offering a high-quality material that is also resistant to chlorine and sunscreen.

Additionally, it provides skin protection from the sun with a UPF (Ultraviolet Protection Factor) of 50+.

PRODUCTION

Our designs come to life in Maicol's studio in Vienna, where every style is meticulously crafted with creativity and passion. For the production of our Wave Edition, we partner with a dedicated small workshop in the Czech Republic, ensuring each item is sewn and packaged with care. We personally know and visit the workshop to guarantee the best working conditions for every team member.

RESPECT THE LOCALS

Each piece of the Wave Collection features a subtle „Respect the Locals“ print.

Let's acknowledge that when we venture into oceans, lakes, and rivers, we are merely guests. It is our responsibility to respect and preserve the habitats of the locals. Together, we can ensure that the beauty and diversity of these waters endure for future generations.
